Please note that further approval shall be considered based upon performance, quality and supplies during this approval period. Manufacturer shall ensure that request for renewal of above approval should come at least one month before expiry of this approval.

Contractor and Manufacturer shall be fully responsible for satisfactory performance of approved products. Please note that the items supplied shall meet the requirements of POWERGRID Specifications/ Approved Drawing/ Data Sheets/ GTP/MQP, relevant IS standards and project specific type tests. Manufacturer shall ensure that the above documents are available at the works so that proper inspection is carried out without delay. If, at any point of time, any abnormality is noticed in this regard, we reserve the right to increase our involvement by way of additional inspection and/or additional customer inspection points (CIP) at any stage or withdraw this approval with immediate effect.

Special Remarks:

M/s Bharti shall ensure the compliance of following points:

- It is recommended to have continuous/shaker belt plant with continuous parameter recording for carrying out heat treatment of higher sizes of Bolts & Nuts (M24 & above of 8.8/8 Grade). However, only rotary furnace is available for all sizes of bolts, nuts and Spring washers.
- M/s Bharti Overseas may request for approval extension of higher sizes of Bolts & Nuts of 8.8/8 Grade i.e. up to M39 (in line with the earlier approval) when they install in-house annealing plant as well as UTM of suitable capacity.
- All the inspection calls for spring washers shall be carried out under Level-II.
